Magnetic Compasses

KMC 55

Certified by Russian River Register

The KMC-55 magnetic compass is intended for finding vessel's magnetic course;
it may be installed at boats, yachts, sailboats, rowboats, motorboats.
Meets the Rules of Russian River Register of Shipping in fitting vessels.

Specifications

1. Scale diameter (mm)	40
2. Scale division (degree)	5
3. Maximum heel when compass is operable (degree).....	40
4. Operational temperature (°C)	-40 to +50
5. Roll angle (degree)	up to 45
6. Pitch angle (degree)	40
7. Lifetime (years).....	15

KMC55-1

KMC55-2

KMC55-3

There are 3 versions available:

Version	Weight (g)	Overall dimension (mm)	Magnetic deviation compensator	Lighting
KMC55-1	220	64×78×90	+	+
KMC55-2	200	64×78×80	-	+
KMC55-3	180	64×78×74	-	-

Note: KMC55-1 and KMC55-2 may be supplied with small-size watertight autonomous 1.5 V power supply unit.
